

OUR BAY

Venture into the heart of our Bay and discover with an ever renewed pleasure the diversity of its landscape, with its flavours and colours that are never the same from one day and one tide to the next.

Bathed in a continually changing and breathtaking luminosity, with shades of grey one minute, the next flashes of deep blue, it's an easy sail from one port to the next. In fact, you are no more than half day's sailing, or an hour and a half in a motor cruiser, from your next port of call.

You can make the tide your most useful ally, enabling you to discover our deep water marinas and locked ports, and in between a great variety of delightful islands, each with its own rich flora and fauna.

Sailing from east to west, such jewels as Ecrehou, the Chausey archipelago, the Minquiers, the Bay of Mont St Michel, the Rance, Fort La Latte, Cap Frehel, the rocky plateau of the bay of St Brieuc, and the island of Brehat, are waiting to welcome you with open arms. Excite your senses of sight, smell and taste in some wonderful areas ideal for rod and line, net or spear fishing. What better than to feast off the fruits of your labours, including shrimp, bass, mackerel and lobster?

So what are you waiting for?

Table of nautical distances
